

WT Recreation – Robotics Science Camp

When: August 3rd-7th 8:45-11:45am & 12:15-3:15pm

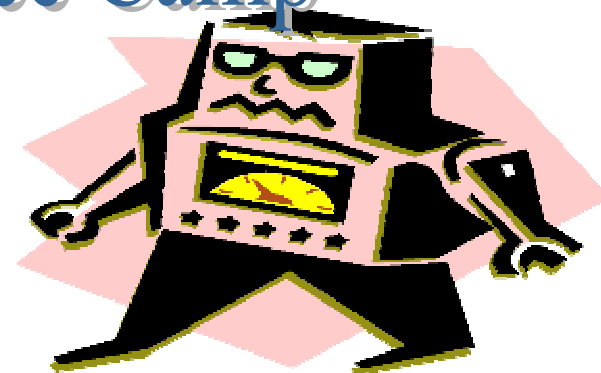

Where: St. Mark Parish

Who: ages 7 - 9 (morning), ages 9-12 (afternoon)

Price: \$ 120 per student –

*****Limited to the first 25 students per session*****

What: Build and Take Home a Robot:

Morning session, ages 7 – 9: In this program, you will have fun learning about how robots work, about their history, and how they will change the future. Have fun building a wide variety of robots with the Robotix building system where your only limit is your imagination! Learn to program your robotic creations with our handheld computers, participate in the robotic battle-bot contest, robo-soccer matches, a tractor pull, and more. Plus, interact with and build an assortment of other unique robots and motorized Lego machines including the 5' tall Commander robot, Robo-Dog, and many more. In this course, participants will build and take home a motorized Robotix project.

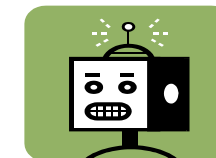

Afternoon session, ages 9 – 12: In this program, we have added all of the excitement and fun of our Robotics program, but have added projects that required more dexterity to complete. You will have fun learning about how robots work, about their history, and how they will change the future. Build a wide variety of robots with the Robotix building system where your only limit is your imagination! Learn to program your robotic creations with our handheld computers, participate in robotic battle-bot contests, robotic soccer matches, a tractor pull, and more. Plus, this summer we will add an introduction to Lego Mindstorms NXT robotics into the program. The Lego robots allow you to build and program your robot using a laptop computer. Have fun building and programming Rex, Tribot, and other creations. All students will bring home a sound activated robot as part of the program.
